

## Ear, Nose and Throat (ENT)

The ENT multi-disciplinary team is led by specialist consultants and senior Audiologists.

We provide a wide range of treatments for symptoms affecting the ear, nose or throat, together with a full range of audiological investigations and diagnostic imaging.

Problems with your ears, nose or throat can be complex and painful, a much broader range than issues of hearing alone and our NWCATS specialist team are experienced in dealing with all types of ENT problems.

If you require further surgical intervention we will seamlessly transfer all results and reports to the choice of hospital to avoid duplicating tests and investigations.
